| TOTAL | 66% | 24% | 11% | 4211 | | | |

- Summary:**
- In total 1002 TCC alumni were invited to participate in this online survey. And, 289 of them completed. This generates a return rate of 29%
 - The majority of TCC alumni (58%) were employed as chiropractic associates, followed by 32% to start own practice.
 - In terms of job placement, 45% of those employed as associates got their first jobs in one year. And 35% of practice owners started in one year.
 - 69% of TCC alumni were satisfied with their current position and 67% of them were satisfied with education received at TCC.
 - Overall, 66% of all respondent alumni gave positive rating to TCC education in fifteen areas, while 24% produce neutral rating.

- Notes:**
- The first seven questions have different rating scale based on types of questions. The scales are listed in the table on top of each question.
 - For Question 2, "Practice" means "Start a chiropractic practice". "Associate" means "Become an associate in an existing practice". "Teach/research" means "work on a teaching or research job in chiropractic". "Grad study" means "Pursue additional graduate study". "Unempl." means "Unemployed or not seeking employment". And "Unrelated" means "Work in an unrelated field".
 - Except Q.1, all the numbers of other questions are percentages. However, all numbers in "Totals" are absolute numbers.
